

Dear Ladies and Gentlemen,

We wish to take this opportunity to formally invite you to the Bulgarian Day integrated within the German Equity Forum 2008 taking place in November 10-12 in Frankfurt.

German Equity Forum 2008

Deutsche Börse and the KfW SME Bank have hosted the German Equity Forum for entrepreneurs and investors since 1996. The Equity Forum taking place in fall, addresses listed companies as well as companies in their late financing stages.

This is Europe's largest platform in the field of equity finance. As in previous years, the main focus revolves around the presentations of capital seeking companies and the exposition of the entire financial community. Companies have the opportunity to showcase their business activities and products, and provide an overview of expected future development.

The event will be complimented by a range of interesting and topical workshops, panel discussions and keynote speeches surrounding the theme of SME Equity Finance.

Bulgarian Day

This year the forum features in a special event devoted to one of the newest members of the European Union - Republic of Bulgaria. As one of the newest EU members and one of the oldest cultures in Europe, Bulgaria would like to demonstrate the achievements in its economy and financial markets during the recent years. We have invited top-class speakers from the political and economic society, who will treat the most interesting topics related to Bulgaria and its economic relations to Germany.

The Bulgarian Day is organized with the exclusive support of Ingo-Endrick Lankau, Honorary Consul of the Republic of Bulgaria for the Province of Hessen, www.honorarkonsul-bulgarien-hessen.de.

Gain your benefits

Get advantage of these special days:

- As an investor you have the unique opportunity to meet international companies, publicly traded or already on their way to the capital market.
- As a company you will get contact to the investor community and check the market for your business model.
- As an adviser you will get current information about the European Capital Market and occur potential clients

At the same time you can use this opportunity to deepen your knowledge about the European and German Capital Market and get in touch with new international investors or new investment alternatives.
